

## How to fix your bladder

### *Take action on delaminating valves before your replacement arrives*

Your valve came off from a bladder in a Best 2015 kite? You don't want to wait until your replacement bladder arrives? For the time being you can easily take actions on the issue yourself although replacements are on the way.

We are sorry that you experience troubles with your Best product. We are eager to provide the best possible service in order to have you back out on the water in no time. Your bladder replacement for the 2015 valve delamination issue will be available soon. In the meanwhile delaminated valves can be glued back to the bladder so you can ride your kite until the new bladder arrives. Do it with care and your re-glued valves will last quite long.

*The links below show types of adhesive that are suitable for this job:*

- German <https://www.youtube.com/watch?v=tzKkXkqWgJg>

This is a temporary fix to get back out on the water until your replacement arrives. In case that you haven't applied for warranty yet please make sure to register your product issue now so we can support you on the highest level possible! Please fill out the warranty form if you haven't done so already: <http://www.bestkiteboarding.com/issue-form/>

**Note: Please do not order warranty replacement bladders for this issue at other sources/aftermarket bladder suppliers.**
